CYBERBULLYING

Cyberbullying of children is when someone uses online content or communication to seriously humiliate, harass, intimidate or threaten a child or young person under the age of 18. It can take many forms including sending abusive messages, hurtful images or videos, nasty online gossip, excluding or humiliating others, or creating fake accounts in someone's name to trick or humiliate them.

Report the online harm:

Report the content to the relevant online service provider. Many social media services, games, apps and websites have a simple process to report content posted by other people. [The eSafety Guide](#) has more information about how to report issues to commonly used online services.

If the service provider does not take action, you or your child can report to eSafety. They will ask you to complete an [online reporting form](#) and include evidence, such as a receipt, reference or report number from the service provider.

eSafety will determine whether the abuse meets the the legal definition of what can be removed. We can then take action to get serious cyberbullying material taken down and provide advice, support and assistance.

For more information, please visit [Cyberbullying | Guide for Parents and Carers eSafety Commissioner](#)

MOBILE PHONES

Frankston Heights Primary School understands that students may bring a personal mobile device to school, particularly if they are travelling independently to and from school or to extra-curricular activities.

During school hours, personal mobile devices must be switched off, and handed to the front office upon arrival at school. The mobile device can be collected at the end of the school day. Mobile devices are to remain switched off until students leave the school premises.

SAFETY

To help protect your personal belongings, please remember to lock your car when coming onto the school grounds. We've been notified by police that cars in the local area have been targeted and personal belongings have taken during the day.

Have a wonderful week.
